

Popular Juice: Practice Reading a Bar Graph

Read today's juice selling record. Then answer the questions below. Show your work.

1. What unit of measurement is used to express how much juice was sold?
2. Write a number at the end of each bar to indicate the amount of juice sold.
3. List the juice in order of popularity.
4. If 5 more glasses of coconut juice were sold, what rank would pineapple be?
5. How many more glasses of kiwi juice need to be sold to make it the most popular drink?
