

# MY SUBSTITUTE TEACHER IS A MAD SCIENTIST

Today we had a substitute teacher for science

class, with \_\_\_\_\_ (color) hair that \_\_\_\_\_ (verb-ed)

straight up \_\_\_\_\_ (number) inches high. His name was

Mr. \_\_\_\_\_ (Animal) and he said he'd show us why

science was the most \_\_\_\_\_ (adjective) class. First,

he used a \_\_\_\_\_ (tool) and a \_\_\_\_\_ (vegetable) to make

a \_\_\_\_\_ (container) of water turn \_\_\_\_\_ (color). Then

he made a \_\_\_\_\_ (noun) of the solar system

using \_\_\_\_\_ (fruit), \_\_\_\_\_ (candy), and \_\_\_\_\_ (noun).

When the principal walked by and saw the

substitute teacher using \_\_\_\_\_ (noun) to \_\_\_\_\_ (verb)

the \_\_\_\_\_ (furniture) into \_\_\_\_\_ (color) \_\_\_\_\_ (nouns),

she asked him to show the class a movie about \_\_\_\_\_ (nouns) instead.

The next day, we had a different substitute teacher.
