

HOLIDAY THEMES

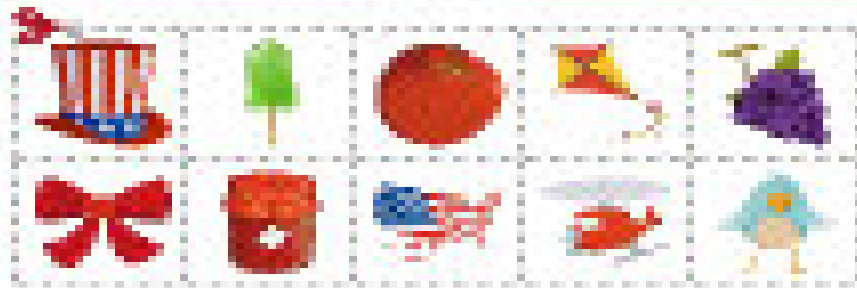

Sorting and organizing objects by color and shape is an important skill for young children. This activity is designed to help children learn to identify and name different colors and shapes, and to sort objects accordingly.

All of these pictures _____

All of these pictures _____

For the purpose of this activity, the children will be asked to sort the pictures into two groups based on color and shape. They will be asked to identify the color and shape of each picture and to place it in the correct group. This activity is designed to help children learn to identify and name different colors and shapes, and to sort objects accordingly.
