

**Spine**

Fold pages accordion style, by starting with the white pages folded up towards the lined pages. Glue the two sets of pages together, with the two lined pages glued together.

Take the front and back of the notebook, and place the pages between them. Glue the white ends into the covers. Hold them together with a non-toxic glue or clay, and brush spine with glue. Let dry.

Once dry, glue on the spine, starting at the front, and wrapping it around to the back.
