

The Red Ripe Strawberry

What's Missing?

Look at this juicy red ripe strawberry.
Can you tell what's missing?

You're right.
It's not red
and there are
no seeds.

Use markers or paint
to make the berry red
and the leaves green.

Use a paint brush to brush
school glue on the strawberry
and sprinkle on whole mustard
seeds or sesame seeds.

Did you know? A strawberry has about
200 seeds. That's a lot of seeds!

What color are the seeds? Use a magnifying glass to
look at a real strawberry.
