

Write each missing number.

The image shows a train with 10 cars. Each car has a steam engine on the left and a number sequence on the right. The numbers are: 1, 10, 11, 20, 21, 30, 31, 40, 41, 50, 51, 60, 61, 70, 71, 80, 81, 90, 91, 100. The numbers are arranged in a sequence that increases by 10 in each row, starting from 1 and ending at 100.

1									10
11									20
21									30
31									40
41									50
51									60
61									70
71									80
81									90
91									100
