THE BUCKET LIST

A **bucket list** is a list of things you want to do before you die. The idea came from the movie *The Bucket List* starring Jack and George, played by Robin Williams and Morgan Freeman. The movie is about two men who are dying of cancer, which illustrates how important it is to live well before it's too late. You don't need to live well before it's too late, but you should at least have a bucket list before you die. The bucket list should contain things you want to do before you die, such as:

THE BUCKET LIST (your bucket list)

Below is the bucket list that you would use to do, and, when completed, you can see the bucket list.
