

Write each missing number.

The image shows a train with 10 cars. Each car has a steam engine on the left and a number sequence on the right. The numbers are: 1, 11, 21, 31, 41, 51, 61, 71, 81, 91. The sequence ends with a number in the last car: 10, 20, 30, 40, 50, 60, 70, 80, 90, 100. There are 8 empty boxes between the starting and ending numbers in each sequence.

1									10
11									20
21									30
31									40
41									50
51									60
61									70
71									80
81									90
91									100
