

This is a timed test. I had 5 minutes to complete it and show that I can solve or have learned these equations. If I didn't complete it, the rest is homework.

I should be having enough repetition that I can begin to "see" a picture of these in my mind to be able to solve without using fingers or materials.

**fantastic**

**okay**

**need more practice please**

$1 + 3 =$

$1 + 1 =$

$2 + 3 =$

$0 + 5 =$

$4 + 1 =$

$3 - 2 =$

$1 + 3 =$

$0 - 0 =$

**bonus!**

$1 + 2 = 5$

$1 + 2 = 10$
