

STAIN REMOVAL GUIDE

STAIN

REMOVAL

BLOOD	Soak in cold water, mixed with two tablespoons of salt overnight.
BROCCOLI	Remove as much of the pieces of broccoli, being careful not to over-saturate. Rinse the pieces in cold water. Soak in a warm (not scalding) and leave it for 24 hours, then wash (do not rub).
COFFEE	Apply a solution of white vinegar and hot water to the stain with a sponge.
CRAYON	Scrape away the wax with the blunt side of a butter knife.
INK (OR ANY OTHER LIQUID)	Use a white non-synthetic sponge on the affected area until you have removed all ink. Repeat if necessary.
GREASE (OR OIL)	Put stain with dish soap and a little water, rub with sponge. Rinse thoroughly.
URINE	Use white vinegar with water sponge on the stain.
GRASS	Scrape away the grass on the affected area to the best of your ability. Then the stain with dish soap and water in the form of a scrubber for the grass.
SOOT	Apply on the stain for the area to be treated the grass, in a hot water. Soak off as much of the stain as you can. Then use the stain with dish soap and water in the form of a scrubber for the grass.
