**Directions:** Print the letters you want to use for your banner on paper or card stock. Decorate as desired.

To put your banner together, connect the punch holes with a hole punch or the top hole punch of the letters. Join with paper fasteners (such as push pins), or string, ribbon or twine. You may choose to reinforce the holes by placing tape over the area where the hole will be before punching, or by using hole punches which have a built-in reinforcement.

Enjoy your banner!
