**#1, #2, & #3** should be three of your "must do's" to help you reach your goals. If the "must do" is daily, give yourself a grade **vv** (consider adherence to plan, intensity/completeness of effort, etc.) every day; if it's a weekly "must do", you will only grade yourself every seven days. Examples of three "must do's" include: exercise program, eating plan, and positive self-talk. Whatever they are, be sure to fill yours in under #1, #2 & #3, along with your 30 Day Goal Weight & WHR: waist-to-hip ratio. Record your **Weight and WHR** **goals** a week on the same day each week.  
**vvGrades:** A+ = 100%, A = 99%, A- = 90%, B = 80%, C = 70%, D = 60%, F = 0%  
**vvv** Use **Row A** to include your completion rates (# of times you filled in day & dates, grade averages for "must do's" #1, #2 & #3, and to compute the difference between your final "Weight" and "WHR" measurements compared to your goals for the month. Use **Row B** for Next Month's Goals for each column.
