

Regulatory Signs

Regulatory signs direct drivers to follow certain traffic laws. You must obey these signs in order to drive in a safe and lawful manner. If you do not obey these signs, you may be issued a traffic citation that may impose a fine.

Stop

Come to a complete stop. Remain stopped until pedestrians and vehicles with the right of way have cleared the intersection. Then proceed with caution.

Yield

Slow down or stop, if necessary. Give the right of way to all other vehicles and pedestrians, and wait until it is safe to proceed.

Do Not Enter

Do not enter that lane or road if this sign is facing you.

Wrong Way

You have entered a lane of oncoming traffic. You are traveling in the wrong direction.

No Left Turn

No Right Turn

No U Turn

No Parking

A red circle with a red slash mark across a symbol indicates that you should not take a certain course of action.

MINIMUM
40

Speed Limit

Speed limit signs indicate the maximum speed at which you may drive on an area of road. Minimum speed limits are usually posted on interstate free-ways with controlled access. Do not drive slower than the minimum posted limit unless bad weather or poor road conditions make it necessary.

Do Not Pass

Marks the beginning of a no-passing zone.

One Way

Traffic in the specified lane flows only in the direction of the arrow.

Keep Right

Stay to the right of a traffic island, median, or obstruction ahead.

Roundabout

When approaching a multi-lane roundabout get in the appropriate lane well in advance of the roundabout. Lane use signs will always show which lanes can be used for different turns. In this example, to turn right, get into the right lane only and to turn left, get into the left lane only. The sign shows that you can go straight from either lane.

Lane-Use Control Signs

Turning is required or specified from a specific lane.

Traffic in the right lane may proceed straight ahead or turn.

No Turn on Red

Wait for the traffic signal to turn green before you turn.

Center Lane Only

The center lane is shared, for the purpose of making left turns, by traffic traveling in both directions.

Reduced Speed Ahead

A slower speed limit is posted ahead. Begin reducing your speed.

Restricted Lane

The diamond symbol indicates that the traffic lane is reserved for a specific use or a certain type of vehicle. The lane may be designated for cars with two or more passengers or for bus, commercial vehicle, or bicycle use.

Handicapped Parking

Parking spaces posted with a blue "handicapped parking" sign are reserved for vehicles displaying disability license plates or a disability parking permit. When designed disability parking spaces are either occupied or unavailable, a vehicle displaying a valid disability parking permit or license plates may park at an angle and occupy two standard parking spaces.

Warning Signs

Warning signs alert you to possible hazards ahead. For your own safety and the safety of others, you must be able to recognize them and react accordingly.

Most warning signs are yellow. Signs warning of pedestrian or bicycle crossings and school zones may be either yellow or fluorescent yellow-green. Some common warning signs are shown below.

Railroad Crossings

Warning signs, pavement markings, gates, and flashing red lights are positioned at most railroad crossings. Pavement markings include a stop line, an "X," and the letters "RR" painted on the pavement in front of the crossing.

An X-shaped sign identifies a railroad crossing. If there is more than one track, a sign below the crossbuck indicates the number of tracks.
