

# WE'LL MISS YOU!

It's your celebration  
It has begun, bring on the fun  
It's your celebration  
To family and friends you are  
Number One

To you we raise our glasses  
To offer this loving toast  
It's your celebration  
We wish you the very most

Here's the day you have waited  
for  
Loved ones here to share your  
pride  
This is what you were created  
for  
Your magic carpet ride

Fill the room with happiness  
Share the love you feel inside  
Everyone here is your special  
guest  
Welcome all from far and  
wide... cause

Time to start the dancing now  
One by one or two by two  
Even if you think you don't  
know how  
Do what feels good to you

Time to make a new memory  
To last until we meet again  
So let's keep the party  
simmering  
Sing along and clap your hands
