

Nurse Retired

You've walked the long halls tirelessly
and answered countless call lights through the years.
You bathed the sick with a compassionate heart and
it was your gentle hands that wiped away the tears.

You fed those that couldn't feed themselves
and delivered medications in a timely way.
You taught many topics and offered an ear
to listen and with some you were there to pray.

You are a strong, courageous and selfless nurse
who now deserves this time of rest.
Through all the years of the seemingly thankless
career, you have passed all of God's tests.
