

Bathroom Cleaning Routine

- Gather your supplies
- Scrub shower walls and tub with Magic Eraser. Throw away empty bottles. Change razor blade.
- Put toilet bowl cleaner in the toilet and let soak. Spray down mirror and all surfaces with All Purpose Cleaner. Spray hydrogen peroxide over what you already sprayed on the toilet, countertop and sink.
- Wipe down mirror with paper towels.
- Dust tops of picture frames, towel bars and toilet paper holder with microfiber cloth. Spray cloth with all purpose cleaner if necessary.
- Wipe down countertops, sink and toilets with cotton rag, in that order. Then wipe down garbage can.
- Vacuum or shake out any rugs and sweep the floor thoroughly.
- Scrub the floor with vinegar. Make sure you get behind doors, and behind the toilet!
- Fill tub halfway with hot water and add $\frac{1}{4}$ C bleach. Let the liner hang in the water.
