

Dear [NAME],

It's such a beautiful day up here at the North Pole! I took the sleigh out for a test ride this morning, and the reindeer were very excited. They can hardly wait for Christmas!

How about you? Are you ready for Christmas? We're very busy up here. I checked the toy workshop this morning and saw the elves have almost finished your special gift. I don't want to spoil the surprise, but I told them you really wanted a [TOY], so I know they're making you something great.

How is everything in [HOMETOWN]? I see that you've been a very good [GENDER] this year, and I was so proud and happy to hear that you [ACCOMPLISHMENT]. That's terrific!

Rudolph is looking forward to seeing you again. He was so amazed when I told him you're already [AGE] years old. He still remembers the first time we came to visit you in [HOMETOWN]. Now you're getting so big!

Don't forget to leave out a treat for Rudolph and the other reindeer on Christmas Eve. They get very hungry with all that flying. See you soon!

Love,

Santa

Dear [NAME],

How have you been? We've been very busy up here at the North Pole getting ready for Christmas, but I wanted to write to you before my big trip and let you know that you're on my Nice List for [AGE]-year-old [GENDER]s this year. Congratulations!

Now that you're [AGE], I know that you're learning to do so many things. I was very proud to hear that you [ACCOMPLISHMENT] this year. That's great!

Because you've been so good this year, I've asked the elves to make you something very special. They know you really want a [TOY], so I'm sure you'll love what they're building.

I'm looking forward to seeing you soon in [HOMETOWN]. I've been making some improvements to the sleigh so it will be even faster and quieter this year. The reindeer and I try very hard to be quiet and not wake anyone up when we visit because my Christmas magic only works when everyone is asleep.

So be sure to get in bed early on Christmas Eve! And don't forget to leave out some cookies. I love snacks. See you soon!

Love,

Santa
