

Diaper Card

Cut out, decorate,

I Scalloped the Legs & Top

I didn't put the paper into the scalloped edge punch all the way only far enough to scallop

it's easier to punch the legs with the diaper closed (punching through 2 layers) & tabs/flaps in

These are the measurements in case this doesn't copy to full page the pattern goes to the ~~end~~ edge of both sides so carry the lines to the edge
