Record all Repairs, including routine maintenance such as Oil Changes and Tune-Ups. While the vehicle is under Warranty, you may not be given an Invoice, when the car is picked up, because there was "no charge". Demand an Invoice (it's your right) since it details what was or was not repaired. If there are any incidental charges such as Towing, Lodging, or any other out of pocket expenses, record the charge and attach a copy of the Invoice or Sales Receipt.
