

## Printable Pinwheels

**Creativity Tip:** Use a double-sided roller to

alternately glue a piece of wrapping paper to the back of the pinwheel before you cut it out. Or print this onto the white side of pre-printed wrapping paper.

### Instructions:

1. Cut out pinwheel and fold corners inward with circles into the center.  
2. Secure with glue onto a wooden dowel for pinwheel's central rod.  
3. Blow it to spin and enjoy!
