

Photography Cheat Sheet

www.ourfifthhouse.com

ISO- Is the Sun On?

it's like a light switch

turn down in bright light- up in low light

*TRIPOD LETS YOU USE A LOW ISO IN LOW LIGHT

APERTURE- What do you want
in Focus?

small f stop = fuzzy background

big f stop = more in focus background

SS-
(shutter speed)

How fast do I want to
snap this picture?

slowly because I want to let in as much light as possible or fast because I already have enough light

*TRIPOD LETS YOU USE A SUPER SLOW SS
