

Dinner Discussion Questions

(Glass Jar Project)

Instructions

1. Cut out and affix the label at the bottom of the page to a jar or tin.
2. Cut out the dinner discussion question cards on the next few pages and place them in the jar or tin.
3. Place the jar or tin at the dinner table during family mealtime.
4. Set up a digital audio recorder at the dinner table.
5. Over dinner (or several dinners), turn on the recorder and have a family member choose a question from the jar or tin. Ask the question, then allow each family member a turn to answer.
6. Rotate so each family member gets to ask a question.
7. Repeat as many times as you'd like.
8. Transcribe the recording(s) and include the transcription and/or the audio in your family's journal, life history, on a family blog, or other place where it can be archived. Another fun idea is to include segments of the audio recording in a video with corresponding photos or other video snippets rolling at the same time.
