

DIY Papier-mâché Globe Labels

INSTRUCTIONS: Our **BLOOM & GROW Earth Day Party** just wouldn't be complete with our this super-cool, handmade globe. Once you've completed and painted your papier-mâché globe, you'll be ready to apply these printable labels. Print out this template on normal white paper. Cut out the ocean labels below and color them (we've included the color swatches on the following pages). Using school glue or Modge Podge apply the labels to your globe. Once labels are applied, brush on a generous coat of your glue to seal and protect your work.

- ARCTIC OCEAN
- ATLANTIC OCEAN
- INDIAN OCEAN
- PACIFIC OCEAN
- SOUTHERN OCEAN

* Be aware that you're thinking just ahead of us! In 2010, the International Hydrographic Organization created a fifth world ocean – the Southern Ocean – from the southern portions of the Atlantic Ocean, Indian Ocean, and Pacific Oceans. The new Southern Ocean completely surrounds Antarctica.
