

Mathematical Language

Addition

more increase by
add  plus
count on and
sum $2 + 3 = 5$

Subtraction

minus decrease by
subtract  less
take away count back
difference between $5 - 4 = 1$

Multiplication

times groups of
multiply  product
lots of
multiplied by $2 \times 5 = 10$

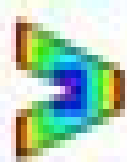

Division

divide how many each?
share  goes into
group equally $12 \div 4 = 3$

Is less than

Is greater than

Equals

is the same as

Is approximately equal to
