

Divide and Conquer!

Hey, looks like you, and I, and the toad have some division problems to solve. They look pretty easy, but wait—what's with those boxes. Can you help us?

① $3 \overline{)27}$

② $4 \overline{)36}$

③ $6 \overline{)36}$

④ $7 \overline{)49}$

⑤ $1 \overline{)2}$

⑥ $\square \overline{)16}$ ⁸

⑦ $3 \overline{)12}$

⑧ $9 \overline{)\square}$ ⁷

⑨ $\square \overline{)50}$ ¹⁰

⑩ $\square \overline{)54}$ ⁹

⑪ $\square \overline{)72}$ ⁸

⑫ $5 \overline{)\square}$ ¹¹

Well, you conquered that! Now, let's bump it up a notch. Try this!

$\square \overline{)\square}$ ⁵
