

A coworker managed to get this for me after seeing what I've been doing, a complete list of all the new Pokémon with names and typing. This fills in the missing gaps in my previous list, but I've yet to see them, nor do I know which ones match up with the names exactly, but here it is.

- |                                |                                |                                 |                                 |
|--------------------------------|--------------------------------|---------------------------------|---------------------------------|
| 655. Fennerva (Fire/Psychic)   | 650. Chespin (Grass)           | 701. Ramzeez (Electric)         | 729. Banacopia (Grass)          |
| 656. Froakie (Water)           | 651. Whirlhog (Grass)          | 702. Mitetens (Bug/Ice)         | 730. Herbud (Grass)             |
