

Mother's Day Tidy-up Scavenger Hunt

Our Mother's Day Scavenger Hunt will have your husband and kids chasing around the house, clearing up any messes and burning off energy, while you keep your feet up! Set up Mom with a book or magazine to read, and some chocolates or other goodies on hand to enjoy while you play. Alternatively, she can record the fun with her video camera. Cut out the cards, shuffle, and complete each task as you

draw it. Get Dad to help out any kids below reading age to understand their tasks. You can rule that everybody playing must separately complete the task, or work together as a family team.

The winner is Mom, of course – but give prizes to all the kids who take part. (Dad's reward is the smile on Mom's face. Ha.)
