

Airplane Bingo

Print out a game board for each family member. Play just like normal bingo. Each card is full of things you would see while taking a trip on an airplane. Keep your eyes open for each item. When you see something on your card, mark the square with a crayon, colored pencil, marker, or sticker. The first person to get five in a row, in any direction, WINS! You can also make the game last longer by playing blackout. The first person who marks off every square on their card, WINS!
