Pizza Box Template
www.schlosserdesigns.com

1.Print out template on the back of your patterned paper.
2.Cut out around all solid lines. With an x-acto knife cut the grey half circle line to make your notch on the top of the box.
3.Score and fold along all dashed lines. Fold the top of the box but not the notch that you cut.
4.Glue rectangular tabs to make the box bottom.
