

## How Well do You Know Your Friends?

Fold the page in half. Fill your name in and answer the questions below (don't say any answers out loud). When finished, turn your paper over so no one can see it. Then, on the other side, write the name of the friend to your left, and answer the questions about her. When everyone's done, take turns reading the questions and answers aloud to see how well you know your friends!
