

Makeup Makeovers

Give yourself and your sleepover girlfriends a great new look with this funny game!

Cut out the cards below. Place them into two different piles and take turns drawing one from each pile. One set of cards will tell what kind of makeup to use, the second set of cards will tell you where to use them!

When you are done with your turn, place the cards back into the bottom of their piles. Shuffle upon each complete run through the deck. When the deck has been gone through three times the game ends. Whoever's makeup looks the best wins!
