

Travel Bingo Game

Directions: There are 24 blank spaces on your bingo board. Select 24 terms from the list below and place each term in a blank space on your bingo board. (Make sure to draw a line through each term as you use it so that you don't accidentally use a term twice.) When you and the other players are finished creating your bingo boards, start playing.

You play this bingo game by looking around for the items listed on your bingo card. When you see an item, you call out the name of the item and point it out to everyone else who is playing. Then, each player draws an "X" through this item on his or her bingo board. The first player to have a complete line of five items (horizontally, vertically, or diagonally) on his or her bingo board calls out "bingo" and is declared the winner.

You can reuse the same bingo card again and again by simply erasing the marks you made on your bingo card during the previous game.
