

I = reading

Before reading I

- relax and ask myself what I have to do
- read the title, subtitles and look at illustrations
- think of what I know about the subject
- predict what will happen

While reading I

- notice the words I know
- guess the meaning of words I don't know
- ask myself questions
- read and reread if I don't understand
- focus on important elements
- imagine what it looks like
- make a connection to my own life or to what I already know

After reading I

- check to see if my predictions were right
- do the task
- evaluate my understanding
- think of the strategies that helped me
- congratulate myself
