**VINTAGE BLOCK BOX**

Print onto white card stock. Trim out using scissors or an Xacto knife. Using a ruler and a bone scoring tool, score along the dotted lines. (Or, use a butter knife or the blunt back side of an Xacto knife to carefully score.) Fold scored lines and fold into a box. Tape or glue the flaps together first (marked with an X below), then fold and secure. Use doublestick tape or a hot glue gun.
