## Introducing: Mass Senior Care

**Y**ou may have known us as the Massachusetts Extended Care Federation, or simply the “people from the nursing homes”, but as we approach our 60th anniversary advocating for quality care on behalf of older adults and people with disabilities, we are pleased to announce that we have changed our name to Massachusetts Senior Care Association, or Mass Senior Care. The new name reflects the expanding scope of innovative services our members provide and our growing collaborations with partners from across the state and country. While our name has changed, our commitment to the people entrusted to our care is unwavering.

Mass Senior Care represents nursing facilities and other organizations that provide health care for older adults and people with disabilities. Forming a crucial link in the continuum of care, our more than 500

nursing and rehabilitation facilities, assisted living residences, rest homes and continuing care retirement communities:

- provide housing, health care and support services to more than **120,000 people** each year;
- employ over **50,000 staff**; and
- contribute more than **\$3 billion** annually to the state’s economy.
