

The worksheet features a central purple rectangular area containing text. This area is framed by four thin purple lines that extend to the corners of the page. At each corner, there is a stylized illustration of a planet: top-left is Saturn with a yellow ring, top-right is Earth with blue and yellow continents, bottom-left is Earth with green and blue continents, and bottom-right is Mars with a red surface and a red ring. The background is dark blue with a subtle pattern of white dots representing stars. At the bottom of the page, there is a curved horizon line with several dark grey circles of varying sizes, representing craters on a moon or planet surface.

Astronomy and The Planets

1. What is the name of the first planet from the sun?
2. What is the name of the third planet from the sun?
3. What is the name of the fourth planet from the sun?
4. What is the name of the fifth planet from the sun?
5. What is the name of the sixth planet from the sun?
6. What is the name of the seventh planet from the sun?
7. What is the name of the second planet from the sun?
8. What is the name of the eighth planet from the sun?
9. What used to be known as the ninth planet from the sun?
10. How often does the earth spin on its axis?

Mercury
Earth
Mars
Jupiter
Saturn
Uranus
Venus
Neptune
Pluto
Once every 24 hours
