*Note: Dashed lines in pattern indicate sewing stitch in black.*

- Cut two bodies and one each of the other pieces. *Note: The eye pupils are created with black buttons.*
- Begin by tacking the orange part of the eye to the body front with the buttons to complete the eye.
- Sew the crown piece on to the body front, overlapping the eyes slightly. Tack the beak piece under the crown and tack at the top.
- Tack the underwing on to the body front.
- Stitch the overwing into place with the decorative stitching featured on the pattern in black.
- Stitch the front and back pieces together with a blanket stitch, pausing to stuff the body with fiberfill before completing.
