

## LEFT RIGHT BABY SHOWER GAME

Helping Mrs. **Wright** to the car he decided to drive **left** on Route 69 instead of taking the **right** at route 71, to avoid traffic. He told Mrs. **Wright** to breathe but she shouted at him to keep his eyes **right** on the road because he was veering to the left. Upon reaching the hospital, he ran to the nurses' station and asked for Dr. Bing. The nurse told him Dr. Bing had just **left** but not to worry she will call him **right** back. The nurse helped Mrs. **Wright** into a wheelchair to take her **right** up to delivery. Mr. **Wright** kissed Mrs. **Wright** and told her he was going to fill out the forms and he will be **right** with her.

When he was through, the nurse told Mr. **Wright** that delivery was straight up the corridor and to take the first **left** at the vending machine, then **right** pass the red door and then the second **left** for delivery.

He got prepped and went to hold Mrs. **Wright's** Hand. When the doctor told her to push Mrs. **Wright** pushed so hard the baby popped right out. Dr. Bing handed Mrs. **Wright** her baby girl and the proud parents looked at her with smiling admiration.

Mr. **Wright** looked at Mrs. **Wright** and said the baby was so precious they should work on another little **Wright** immediately. Mrs. **Wright** looked at Mr. **Wright** in amazement and said "you are joking, **right**?"
