

Bulldog Letter Reversals Demo Pack

Bulldog Letter Reversals is the games, worksheets and kinesthetic activities pack to help children aged 5-12 years to overcome b and d letter reversals.

This is the demonstration pack with free sample booklet that you can give to your children right now - just print using the printer.

Bulldog is the adorable dog that features in our learning pack, helping children to learn and understand the difference between 'b' and 'd'. Introducing your child to this strategy to remember the difference between 'b' and 'd' will resolve the reversal problem once and for all, leaving your child again.

The unique Bulldog theme is linked to the essential memory tools used. This is combined with pictures to create an engaging, fun and interesting learning experience.
