

THESE
are the most common
of the birds which
nest in the
country, and are
found in great
numbers in the
mountains of
the Alps, where
they are much
valued for their
eggs, which are
said to be very
good for the
stomach, and
to be a great
remedy for
the colic, and
other disorders
of the bowels.

THE following is the
description of the
figures, which are
found in the
country, and are
said to be very
good for the
stomach, and
to be a great
remedy for
the colic, and
other disorders
of the bowels.
