

Plant anytime of the year. On the North side
of the house, dig a hole 6' deep & 8' long.
In the dark of the moon at midnight, plant
seeds about 2' apart.
For Frosted Donuts - sprinkle blooms with sugar.
For Chocolate Covered Donuts - fertilize with
chocolate syrup. Water with coffee and donuts
will have handles for dunking.
You must BELIEVE!
If nothing grows, you end up with Donut Holes!!!
