## Discover the Unknown

Directions: Write the unknown factor for each pair.  
The first one is done for you.

$50 \div \underline{\quad} = 25$  because,  $25 \times \underline{\quad} = 50$

$34 \div \underline{\quad} = 4$  because,  $\underline{\quad} \times 4 = 34$

$42 \div \underline{\quad} = 6$  because,  $42 \times \underline{\quad} = 6$

$81 \div \underline{\quad} = 9$  because,  $\underline{\quad} \times 9 = 81$

$54 \div \underline{\quad} = 9$  because,  $8 \times \underline{\quad} = 56$

$16 \div \underline{\quad} = 4$  because,  $\underline{\quad} \times 4 = 16$

$32 \div \underline{\quad} = 8$  because,  $8 \times \underline{\quad} = 32$

$72 \div \underline{\quad} = 8$  because,  $\underline{\quad} \times 8 = 72$

$63 \div \underline{\quad} = 7$  because,  $7 \times \underline{\quad} = 63$

$24 \div \underline{\quad} = 4$  because,  $\underline{\quad} \times 4 = 24$

$100 \div \underline{\quad} = 4$  because,  $4 \times \underline{\quad} = 100$
