

EXAMINATION OF LIFE

- 1. LIFE**
 - 1. A state of the body that is able to exist.
 - 2. A state of the body that is able to exist.
 - 3. A state of the body that is able to exist.
 - 4. A state of the body that is able to exist.
- 2. CHARACTERISTICS OF LIFE**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

CELLS

- 1. CELL**
 - 1. The smallest unit of life that is able to exist.
 - 2. The smallest unit of life that is able to exist.
 - 3. The smallest unit of life that is able to exist.
 - 4. The smallest unit of life that is able to exist.
- 2. CHARACTERISTICS OF CELLS**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

THE SKIN

- 1. SKIN**
 - 1. The outermost layer of the body.
 - 2. The outermost layer of the body.
 - 3. The outermost layer of the body.
 - 4. The outermost layer of the body.
- 2. CHARACTERISTICS OF SKIN**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

EXAMINATION OF LIFE

- 1. LIFE**
 - 1. A state of the body that is able to exist.
 - 2. A state of the body that is able to exist.
 - 3. A state of the body that is able to exist.
 - 4. A state of the body that is able to exist.
- 2. CHARACTERISTICS OF LIFE**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

CELLS

- 1. CELL**
 - 1. The smallest unit of life that is able to exist.
 - 2. The smallest unit of life that is able to exist.
 - 3. The smallest unit of life that is able to exist.
 - 4. The smallest unit of life that is able to exist.
- 2. CHARACTERISTICS OF CELLS**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

THE SKIN

- 1. SKIN**
 - 1. The outermost layer of the body.
 - 2. The outermost layer of the body.
 - 3. The outermost layer of the body.
 - 4. The outermost layer of the body.
- 2. CHARACTERISTICS OF SKIN**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

EXAMINATION OF LIFE

- 1. LIFE**
 - 1. A state of the body that is able to exist.
 - 2. A state of the body that is able to exist.
 - 3. A state of the body that is able to exist.
 - 4. A state of the body that is able to exist.
- 2. CHARACTERISTICS OF LIFE**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

CELLS

- 1. CELL**
 - 1. The smallest unit of life that is able to exist.
 - 2. The smallest unit of life that is able to exist.
 - 3. The smallest unit of life that is able to exist.
 - 4. The smallest unit of life that is able to exist.
- 2. CHARACTERISTICS OF CELLS**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.

THE SKIN

- 1. SKIN**
 - 1. The outermost layer of the body.
 - 2. The outermost layer of the body.
 - 3. The outermost layer of the body.
 - 4. The outermost layer of the body.
- 2. CHARACTERISTICS OF SKIN**
 - 1. The ability to exist in the environment.
 - 2. The ability to exist in the environment.
 - 3. The ability to exist in the environment.
 - 4. The ability to exist in the environment.
