

*DIY - Printable Happy Birthday Pennant Banner - Glam Punk Happy Birthday Collection*

For best results:

1. Print out on bright white cardstock paper or premium photo paper with a gloss finish from your home printer or from a local/online photo lab
2. Cut out pennant triangles
3. Punch a hole in the top corner of each pennant to string together with ribbon or you can also simplify the process by hot glueing each pennant to ribbon.

Extra blank pennants are provided for you to customize anyway you want. A fun way to customize the banner is to use the blank pennants to add some personal pictures.
