

As a Children's Ministries Team design a pennant from the template below that best shows visually what your ministry looks like today. Be creative but be sure to work as a team. The only rule is no words.

This can be a great way to get the creative juices flowing for your whole ministry team.

Before coming to the conference cut out the pennant, when you arrive at the Navigating New Waters Conference your pennant will be placed with pennants from all over Canada.
