

Beachdress

is crocheted in rows

6 x ch with blue, 4 x ch with grey, 8 x ch with white **or** 19 x ch with one color

The turning chain stitch is not included in the number of stitches

Attention: You have to change the color at the end of a stitch group:

To clarify: if you crochet 8 x sc, you have to change the color in the last stitch. Then you crochet 4 x hdc and also change the color in the last stitch, go ahead make all the dc's and change color in the last stitch. It sounds more complicated than it actually is, make sure that you keep the threads always on one side.
