Road Trip Bingo

Print out a game board for each family member. Play just like normal bingo. Each card is full of things you would see while on a road trip. Keep you eyes open for each item. When you see something on your card, mark the square with a colored pencil or sticker. (Avoid pens, which can be permanent, and crayons, which melt in the heat of a car). The first person to get five in a row in any direction, WINS! You can also make the game last longer by playing blackout. The first person who marks off every square on their card, WINS!
