

Things You Will Need:

- 1) Several Large Sheets Of Black Construction Paper (18x12")
- 2) Paper Shreds, Bits of colourful/sparkly paper for cockade and/or trim
- 3) Glue or Glue Stick
- 4) Scotch Tape and/or Stapler
- 5) Scissors
- 6) Cardstock for a template (18" x 12")
- 7) Optional: Buttons or tinkets for decorations

How To Assemble:

- 1) Draw the above image onto cardstock as a template, make it so it is an appropriate size for your head.
- 2) Take two sheets of the black construction paper and cut out two hat shapes, from the template that you made.
- 3) You may want to adjust the template to the right size for the hat you are trying to create - dont be scared to paste a couple of sheets of construction paper together if necessary.
- 4) Along the edge of one of the hat shapes, glue a bit of the paper shreds so they form a "spacer".
- 5) Loosely tape the edges of the two hat shapes together, or hold them together with your fingers.
- 6) Place the hat on your head, and mark the edges of your temple, where the hat fits best.
- 7) Staple the hat together, at the edges of each of the temple marks. Glue the edges of the hat together.
- 8) Add a cockade or decorate as you wish! :)
