

Kids Paper Purse Project

- * Cut a circle-shaped
- * Fold it in half to make a semi-circle.
- * Take the left and right edges.
- * Fold both sides inward slightly
(like making small flaps).
- * Fold the bottom edge upward.
- * Open it slightly - this creates a 3D pocket shape
(like a small basket).
- * Cut a handle
- * Attach one end to one side of the basket.
- * Curve it over and attach the other end to the opposite side.
- * Now it looks like a mini basket with a handle.
- * Add glue where needed so the shape stays firm.
- * Color the flower

For handle
