

PROJECT PROPOSAL

NAME :

DATE :

PROJECT NAME :

PROJECT OVERVIEW

Main research issue; study focus; analysis approach; importance of the topic

CONTEXT AND IMPORTANCE

Problem description; reasoning behind the study; issues addressed; research sources and methods

PROJECT OVERVIEW

Main research issue; study focus; analysis approach; importance of the topic

REVIEW OF SOURCES

Summarize, compare, evaluate, and connect relevant references

RESEARCH APPROACH AND PROCEDURES

Research process; data collection and analysis; interpretation methods; possible challenges

INITIAL ASSUMPTIONS AND IMPACT

Expected findings and potential significance of the study

FINAL SUMMARY

Why the topic matters; what makes the research valuable; contribution to existing knowledge
